

NOVEMBER 2019

SILENT GLOW

In times of darkness we are grateful for any rays of light.
Light means life.

The golden leaves of the vines, the gleaming ruby of maple leaves,
the last colours of the sun going down.

Save it all in your diary, the month of November.

At some point during the dark time it all will come visible again.
Then let it fly with the whirl of the white flakes,
give the gift of a silent glow to the darkness.
