

OCTOBER 2019

OCTOBER RED

It is probably one of the most beautiful and yet shortest time of the year that once more spreads out all the colours, the warmth and light that a year has to offer. This is October autumn.

Red is still the colour of sweetness, of fulfillment and reminds you of the heat of the summer.

Red warms the soul when the first mists start rising in us.

Red ennobles the new wine which still seethes vigorously in the barrel.

Red is the ember of faith into life, happiness and into the future.

But the bright red of sweet joys turns soon darker, Indian summer is mean in spreading radiant light, the gold of the month turns into copper and the Bordeaux red of the vines darkens.

October red is the dominating colour. It is a sign of long, cool nights and subdued zest for life, of time to think and reflect, of tranquility.
